11.6 Place Betting

11.6.1

Interpretation

“**Place**” is a bet type whereby the investor endeavours to select a Race Entrant to fill a Dividend Bearing Place in a Race as designated by the Board.

“**Starters**” is the number of Race Entrants in a race. For races run in New Zealand the number of Starters shall be the number of Race Entrants remaining in each of such races at 9:00am on the day of the race meeting, or one hour prior to the scheduled starting time of Race one, when Race one is scheduled to start prior to 10:00am. For races run outside of New Zealand the number of Starters shall be similarly determined two hours prior to the scheduled starting time of the first race of each meeting as made available for betting by the Board.

“**Dividend Bearing Places**” means the number of parts that the Dividend Pool will be divided and is determined as follows:

- (a) Dividend Bearing Places will be zero if the number of Race Entrants in a race is four or fewer. In such cases all units of Place betting on that Race will be refunded.

- (b) Dividend Bearing Places will be two and dividends will be paid to first and second places where the number of Starters is five, six or seven. Where a dead heat occurs, the Dividend Bearing Places shall be the first two Entrants determined as such according to the Official Result, notwithstanding that a dead heat between two or more Race Entrants may cause the number of Race Entrants eligible to fill the Dividend Bearing Places to be more than two; and

- (c) Dividend Bearing Places will be three and dividends will be paid to first, second and third places where the number of Starters is eight or more. Where a dead heat occurs, the Dividend Bearing Places shall be the first three Entrants determined as such according to the Official Result, notwithstanding a dead heat between two or more Race Entrants may cause the number of Race Entrants eligible to fill the Dividend Bearing Places to be more than three.

- (d) if the judge, stewards or judicial committee make an error regarding such determination and subsequently correct the error in accordance with the Rules of Racing, the placing Entrants shall be the Race Entrants in respect of which the judge, stewards or judicial committee, after correcting their error, determine as the placing Entrants according to the Official Result; and

- (e) the disqualification of the Race Entrant on which a Place Dividend has been paid shall not affect that Entrant's status as a placing Entrant if the disqualification resulted from a protest lodged after the expiration of the period allowed by the Rules of Racing for the lodging of such protests.

11.6.2 Races

Place betting may be conducted on such Races as the Board may determine from time to time.

11.6.3 Method

A Place bet is placed by the Investor selecting a Race Entrant or Entrants to Place in a Race.

11.6.4 Dividend Pool

The Dividend Pool shall be divided into as many equal parts as there are Dividend Bearing Places provided such Dividend bearing Race Entrants have units of Place betting invested on them. Each part is then distributed equally amongst those units of Place betting that have selected the Race Entrant to place.

Should any part of the Dividend Pool be less than the number of units of Place betting to be paid by that part, then that part will be supplemented from that race's Place betting Deductions until that part is equal to the corresponding number of units of betting.

Should such Deductions be exhausted and that part is still less than the corresponding number of units of betting, then it shall be further supplemented up to the required amount, by equal amounts of money being transferred from the remaining parts.

11.6.5 Dead Heats

In the event of a dead heat causing there to be more Race Entrants, filling a Dividend Bearing Place, than there are Dividend Bearing Places, then only those parts of the Dividend Pool from Rule 11.6.4 affected by the dead heat will be further divided equally into as many sub-parts as there are Race Entrants (with units of betting on them) involved in the dead heat.

Example. In a race, where Dividend Bearing Places is three, there is a triple dead heat for second, then the 2nd and 3rd parts

of the Dividend Pool will be further divided to create three sub-parts, each now two-thirds of the 1st part.

11.6.6 Scratchings

Where a Race Entrant is Scratched from a Race, the Board will refund all units of Place betting placed on the Scratched Race Entrant.

11.6.7 Abandonments

 - (ii) Where a dead heat occurs for a particular placing, all dead-heating Entrants shall be deemed to hold that placing and the immediate placing or placings below shall be skipped for the purpose of placing the other Entrants. For example, for a dead heat for second place the First Four Placings shall be as follows – “first”, “second”, “second”, “fourth”; and

- (d) If the judge, stewards or judicial committee are unable or fail to determine the First Four Placings, the Board may determine the First Four Placings.

- (b) Where the sum of winning units of betting is less than the Dividend Unit, the Dividend Pool will be declared as the Dividend and winning units of betting will receive their proportional share of the Dividend Pool. The balance of the Dividend Pool, less any Guaranteed Pool Shortfall (which

will be returned to the Code Prize Reserve Pool), will be carried forward and added to the Subsequent First4 Dividend Pool.

- (c) If no unit of betting has selected the First Four Placings in the correct order in a First4 Race, the Dividend Pool, less any Guaranteed Pool Shortfall (which will be returned to the Code Prize Reserve Pool), will be carried forward and added to the Subsequent First4 Dividend Pool.
- (d) In circumstances where a Dividend Pool is terminating and there are no Winners ie countback provisions have been exhausted and the Dividend Pool is distributed amongst all units of betting eg the winning permutation is Any/Any/Any/Any, then the dividend may be less than the dividend unit.

11.12.5 Dead Heats

If a dead heat or dead heats occur in the First Four Places in a First4 Race:

Each Winning Permutation is entitled to a Dividend.

- (c) To calculate the Dividend attributable to each Winning Permutation, the Dividend Pool will be divided into the number of equal parts corresponding to the number of Winning Permutations determined by 11.12.5 (a) and (b). Each part Dividend Pool may contain a pro rata part of any Guaranteed Pool Shortfall and each Winning Permutation together with their corresponding part Dividend Pool and part Guaranteed Shortfall shall be respectively treated as the First Four Placings, Dividend Pool and Guaranteed Pool Shortfall for the purposes of calculating Dividends in accordance with Rule 11.12.4.

16 CONDITIONS APPLICABLE TO MULTI BETTING

16.1 Interpretation

In Rule 16, unless the context otherwise requires:

“Anchor” means a selection marked to be included in all combinations of bets in a Boxed Multi.

“Boxed Multi” allows a number of separate Multi bets to be sold as a single transaction. A Boxed Multi is required to be made up of three or more component options plus a nominated number of bet combinations involving those component options.

“Boxed Multi Return” or **“MAXRETURN”** means the sum of the Returns for all the separate Multi bets sold as a single transaction in a Boxed Multi.

“Multi” means a bet made up of two or more individual Fixed Odds Sports and/or Fixed Odds Race component options.

“Multi Odds” means the product of Odds of two or more individual Fixed Odds Sports and/or Fixed Odds Race component options.

“Multi Return” means the product of Multi Odds times the Investment, subject to Rules 12.5, 14.17 and APPENDIX 1.

“Percentage Multi Bet” means a Boxed Multi bet where the Investor does not nominate a unit of Investment for each bet combination, instead they nominate the total amount they wish to outlay on the bet.

“Related Outcome” means a situation where the outcome of one event in a Multi could have a bearing on another event in that Multi.

“Remainder” means the difference between the Total Amount Nominated, and the outcome of the Investment Formula multiplied by the number of combinations wanted.

16.2 Purpose of Rules

The purpose of Rule 16 is to establish the conditions of Multi betting. Rule 16 is to be read subject to provisions in Rule 12 CONDITIONS APPLICABLE TO FIXED ODDS RACE BETTING, Rule 14 CONDITIONS APPLICABLE TO FIXED ODDS SPORTS BETTING and Rule 15 SPORT SPECIFIC RULES.

16.3 Acceptance of Multi Bets

- (a) The Board may refuse to accept any bet or part thereof without stating reasons.
- (b) It is the responsibility of the Investor to ensure details of their bets are correct.

16.4 Returns

Multi Odds are calculated by multiplying the Odds for each individual selection, then rounding up to the nearest cent. The Multi Return is calculated by multiplying the Multi Odds by the Investment amount and rounding in accordance with APPENDIX 1.

Example: Auckland to beat Wellington is paying \$1.70, Warriors to beat Canberra is paying \$2, All Whites to beat Japan is paying \$3.40.

Multi Odds = $\$1.70 \times \$2 \times \$3.40 = \11.56 .

Multi Return for \$20 Investment = $\$20 \times \$11.56 = \$231.20$

16.5 Variance of Returns

- (a) The Board may determine Maximum Multi Odds. See APPENDIX 1.

- (b) The Board may determine a Maximum Multi Return. See APPENDIX 1.
- (c) The Board may determine a Maximum Boxed Multi Return. See APPENDIX 1.

16.6 Postponement, Cancellation Or Abandonment Of Authorised Event

At its absolute discretion, the Board may allow a period of up to and including three days for an Authorised Event or Race to be conducted before deeming the event or Race to be abandoned.

If an Authorised Event or Race is abandoned or cancelled prior to its commencement, or subsequently abandoned, the Board shall recalculate all Multi bets as if the Odds for all selections on the abandoned event or Race are \$1.00.

16.7 Dead Heats

In the event of a dead heat Rules 12.13 and 14.13 Dead Heats will apply.

16.8 Related Outcomes

- (a) Subject to Rule 16.8(b) Multi bets are not accepted where the events within that Multi are Related Outcomes. If such bets are accepted, the Board reserves the right to Void bets in accordance with Rule 14.14 Errors.
- (b) The Board reserves the right to offer Odds on Related Outcomes where a multiplicative factor reduces the Multi Odds on such Related Outcomes.

16.9 Boxed Multis

After selecting a Multi with three or more Component Options, an investor may take a Boxed Multi by buying a number of related Multi bets as a single transaction. If, for example, an investor selects a Multi

with six component options, that investor could buy, in the same transaction, the 6 Multi bets involving 'ANY5' of their six selections, and/or the 15 Multi bets involving 'ANY4' of their six selections. In all such Boxed Multis the Multi bet involving all component options must be purchased.

Where a betting unit is nominated for a Boxed Multi, this unit will apply to all individual Multibets in that Boxed Multi. Where Percentage Betting is nominated for a Boxed Multi, the Percentage Priority Order for Boxed Multis prescribed in APPENDIX 3 will apply.

The table below shows the number of bet combinations involved in a boxed multi, depending on the number of component options and "any option" choice selected by the customer.

Number of Component Options	"ANY" Options for Boxed Multis							
	ANY2	ANY3	ANY4	ANY5	ANY6	ANY7	ANY8	ANY9
3	3	1						
4	6	4	1					
5	10	10	5	1				
6	15	20	15	6	1			
7	21	35	35	21	7	1		
8	28	56	70	56	28	8	1	
9	36	84	126	126	84	36	9	1
10	45	120	210	252	210	120	45	10

This example shows that with 6 Component Options, there are 15 ANY4 Multi Bets available.

16.10 Anchors

Investors may select anchors in a Boxed Multi. If an anchor is chosen, all Any'n' (where n= 2, 3, 4, 5, 6, 7, 8 or 9) bets will contain the anchor selection. The number of anchor selections must be less than or equal to the smallest Any'n' chosen. For example, where an Investor selects 4 anchors, bet combinations of any 2 or any 3 are impossible.

Example: Where an Investor selects

1. Auckland to beat Wellington; (Anchor)
2. Warriors to beat Canberra; (Anchor)
3. All Whites to beat Japan; (Anchor)
4. Lakers to beat Utah; and
5. Yankees to beat the Mets

Because there are three anchors, “Any2” cannot be selected.

Marking “Any 3” would give the Investor one additional Multi bet comprising Auckland, Warriors and All Whites.

Marking “Any 4” would give the Investor two additional Multi bets comprising Auckland, Warriors, All Whites and Lakers, and Auckland, Warriors, All Whites and Yankees.

16.11 Percentage Multi Bets

Percentage betting is available for Boxed Multi bets.

Minimum Investment

The Board may from time to time determine a minimum Investment for Percentage Multi Betting. See APPENDIX 1.

Investment Unit

The amount invested on each Multi combination is calculated in accordance with the following formula, truncated to the nearest whole number:-

Total Amount (in cents) Nominated

Number of combinations wanted

Any Remainder will be invested at the rate of one additional cent per unique combination in accordance with the Percentage Priority Order until all of the Total Amount Nominated is invested. See APPENDIX 3.
