New Zealand Racing Board Performance and Efficiency Audit

I am pleased to submit this report to Recognised Industry Organisations. It has been prepared to address the requirement of the Racing Act 2003 that the Board, at least once every five years, must arrange for an audit to be conducted in relation to how effectively and efficiently the Board is performing its statutory functions.

In undertaking this review I have greatly appreciated the interest and assistance offered by all those approached for information and evaluation in both the Board and the wider racing industry.

Graeme Nahkies
Director
